# **Interfaith Power & Light**

*honors*

## **St. John's Church, Westwood**

*with our "Wisdom of Solomon" Award. St. John's Church had been struggling with its boiler for several years. The 20-year-old boiler was undersized, under-zoned, and it was a struggle to keep it running. The congregation had already completed an energy assessment through MIP&L membership, and was in a better position to move forward quickly and wisely. To the congregation's eternal credit, they installed a much more efficient, properly sized boiler that will provide zone-controlled, efficient, environmentally friendly heating for years to come. Further, savings on electricity bills from recently installed photovoltaic solar panels helped to fund this project. Thank you for setting a powerful example of environmental stewardship for the community of faith.*
