Interfaith Power & Light

honors

Old North Church, Boston

with our "Clean Energy is Coming! Clean Energy is Coming!" Award. The famed lights of Old North Church are being replaced in April 2005. Henceforth, they will be compact fluorescent lightbulbs (to conserve energy), and their usage will be offset with clean, renewable energy. Paul Revere's ride and "One if by land, two if by sea" was about impending danger. The new compact fluorescent lightbulbs and clean energy are about hope for our future and love for our neighbors. Thank you for setting a powerful example of environmental stewardship for the community of faith.
